Standing Seam 360

Bandit Pipeline is a full energy service provider located in western Canada that provides oil and gas related services such as maintenance, new well set ups, facility construction, and pipeline construction.

This project featured a massive glass curtain wall as well as a beautiful show room. There are jib cranes in the shop area with all clear paneled overhead doors. The exterior is finished with Architectural III panels and a Standing Seam 360 roof.

Innovation. Technology. Solutions.
