

FirstLine Funding Group

Financial office

LOCATION

Madison, South Dakota

SIZE

17,787 sf

WALL SYSTEM

Shadow Panel

ROOF SYSTEM

Standing Seam 360

This office building is a clear span, gable frame structure with a front entrance tower and below eave canopy. The inset/outset façade offers a contemporary appearance, and features our ST40 striated insulated metal panels.

The remaining exterior is a combination of ABC's Shadow Panel wall system and stone. Shadow Panel provides attractive deep-fluted profiles that accent contrasting shadow patterns, and is fastened to the framework from the inside, leaving no exposed fasteners.

Innovation. Technology. Solutions.
