

# Flint Hill Elementary

*Public school*

#### LOCATION

Wentzville, Missouri

#### SIZE

35,132 sf

#### WALL SYSTEM

Masonry & EIFS

#### ROOF SYSTEM

Standing Seam 360

A total of seven metal buildings make up this elementary school: two gable frame structures with four lean-tos. At over 35,000 sf in size, it is clad with a combination of masonry and EIFS, and ABC's Standing Seam 360 roof system. A 2'-6" overhang surrounds the entire structure. Additional support was provided for multiple roof top units and two basketball goals within the gymnasium.

**Innovation. Technology. Solutions.**
