Long Span III

ROOF SYSTEM

Standing Seam 360

Loc Seam 360

This project is a gable style building with tapered columns and a lean-to located on the back wall. Used as storage for the Air National Guard, it features two 5-ton hoists and two 76'x20' megadoors. The lean-to houses mechanical, electrical, and a fire suppression system. Solar panels line the back endwall.

Innovation. Technology. Solutions.
