

Global Polymer

Manufacturing plant

LOCATION

Madison, South Dakota

SIZE

75,500 sf

WALL SYSTEM

LongSpan III

ROOF SYSTEM

Standing Seam & LocSeam

A combination of three buildings, Global Polymer is a total of 75,500 sf in size. Features of this project include an in-floor heating system throughout, a mezzanine with a storm shelter, and contemporary office design enclosed by a curtain wall window system and sloped high roof. The interior of the manufacturing area is lined with the LongSpan III panel system.

Innovation. Technology. Solutions.
