R-Panel

BUILDING END-USE

Truck Dealership

This massive truck dealership is a design/build for Inland Kenworth located on 17 acres near Phoenix, AZ. Four buildings feature tilt-wall exteriors with R-Panel walls, including three 10-ton cranes, large canopies, and multiple skylights for natural lighting and energy conservation. Two buildings are for truck maintenance, with the other structures functioning as offices, parts, retail shop, and display buildings. Attached to the main structure is a 6,800 sf drive-through canopy.
