## LOCATION

Wichita, KS

## SIZE

51,883 sf

## ROOF SYSTEM

Standing Seam  
Galvalume

## BUILDING END-USE

Auto Dealership

Scholfield Buick GMC, in Wichita Kansas, is now sporting a state-of-the-art facility. The project was one of the most complicated projects in the history of Conco Construction with eight separate engineered buildings, more than 25 exterior building corners, and multiple roof elevations. The excellent coordination and communication by the building and design team led to the project being completed under budget and two months ahead of schedule.
