

Touchstone Precision

Molded components manufacturing

LOCATION

Auburn, Alabama

SIZE

70,000 sf expansion

WALL SYSTEM

Insulated metal panels

ROOF SYSTEM

Standing Seam 360

This 70,000 sf expansion features a 170' clear span gable roof system, designed as to allow raw materials and finished goods to freely flow between the warehouse, manufacturing, and logistics areas. This new expansion also includes connector tunnels to the existing structures.

Innovation. Technology. Solutions.
