

USCG Cold Bay Hangar

Hangar

**AMERICAN
BUILDINGS**

A **NUCOR** COMPANY

LOCATION

Cold Bay, Alaska

SIZE

6,390

WALL SYSTEM

Long Span III

ROOF SYSTEM

Standing Seam 360

The project was built in extreme weather including rain, snow, sleet, constant high winds and very little sunshine. There are two buildings: (a) 71' x 90' x 30' gable style building with tapered columns; (b) 7' x 20' x 10' single slope building with straight columns. Mega Door system was used. The total width is 60'9" 1/2 x 27' 3/4" leaf height per Mega door attached with a clear height opening of 60' x 22'.

Innovation. Technology. Solutions.
