ROOF SYSTEM

Standing Seam 360

This charming 9,578-square foot estate winery is located near Harrow Ontario in the Essex Pelee Island Coast Wine Country. Named after one of the many birds that frequent the vineyard, the Cooper's Hawk logo symbolizes their commitment to the environment.

The winery has a single slope framing system with a three-foot overhang around the building and an American Buildings Standing Seam 360 roof. It features an open crush pad for processing grapes, an epoxy coated floor, rough sawn cedar timbers on the exterior with a rough sawn cedar trellis system and a covered seating area for wine tastings.
