

Crazy Critters Cabin

LOCATION

Camby, IN

SIZE

9,528 sf

ROOF SYSTEM

Standing Seam 360

BUILDING END-USE

Private Residence

This private residence, also known as Crazy Critters Cabin, is a spectacular 9,528 sf home that is comprised of two American Buildings structures incorporating a barn area and living space. The barn building was designed around a 65'x120' clear span symmetrical gable structure that includes an indoor basketball and tennis court, and a rock-climbing wall. Perpendicular to the barn structure is a 48'x 36' two-story living space with a partial 1,728 sf mezzanine. The design highlights exposed structural steel with wood beams throughout the interior and stone and wood siding on the exterior, resulting in a truly unique residence.
