BUILDING END-USE

Trailer Bed Service & Repair

Ferguson Farms specializes in service and repair of live floor and belt trailers for feed, seed, fertilizer, and livestock bedding customers. It was established in 1950 beginning as a chicken farm and evolved into trailer and floor service repair and service.

The 26,880 building has an upgraded snow load and 50' center module designed to house two 3-ton bridge cranes on the same runway. The office second floor extends into the main building 24' x 40' and has a basement for a tornado shelter. The shop floor has a hot water radiant heat system. LED lighting was used throughout.
