

Strayer Farms

LOCATION

Spencerville, Ohio

SIZE

30,000 sf

WALL SYSTEM

Long Span III

ROOF SYSTEM

Standing Seam II

Located in Northwest Ohio, this 30,000 sf project was designed for recyclable food products for the agricultural market.

The rigid frame multi-span building features two large 60' x 18' and 28' x 18' hydraulically operated bi-fold doors. The exterior has 8' concrete walls for product storage that are topped with Long Span III panels. Standing Seam II gabled roof in custom black completes this attractive facility.
