

# Strayer Farms

## LOCATION

Spencerville, Ohio

## SIZE

30,000 sf

## WALL SYSTEM

R-Panel

## ROOF SYSTEM

Standing Seam II

## BUILDING END-USE

Food Storage

Located in Northwest Ohio, this 30,000 sf project was designed for recyclable food products for the agricultural market.

The rigid frame multi-span building features two large 60' x 18' and 28' x 18' hydraulically operated bi-fold doors. The exterior has 8' concrete walls for product storage and a Standing Seam II gabled roof in custom black completes this facility.
