

# Mesa Rim Climbing and Fitness Center

## LOCATION

Reno, Nevada

## SIZE

22,521 sf

## WALL SYSTEM

Architectural III combined with EIFS

## ROOF SYSTEM

Standing Seam 360

The Mesa Rim Climbing & Fitness Center is a 24,000-square-foot recreational facility in Reno, Nevada, that features world-class indoor climbing walls, a yoga studio, fitness equipment, and community spaces and lounges. The articulated walls stretch to 52 feet above ground, giving climbers a true sense of verticality.

The project consists of three single slope buildings and two lean-to structures. The large mezzanine provides space for offices, training and storage. American Buildings Company Standing Seam 360 roofing system was utilized as well as Long Span III wall panels combined with EIFs to finish this ultra-modern dramatic building.
