

PDQ Locks Manufacturing

LOCATION

Lancaster, PA

SIZE

73,000 sf

WALL SYSTEM

Architectural III

ROOF SYSTEM

Standing Seam

The project features a 73,000 sf facility that includes two floors of office/administration space and 50,000+ sf of warehousing space. The cost effective PEMB approach allowed for a space large enough to accommodate both their growing administrative and distribution businesses. The PEMB construction also allowed for efficiencies in scheduling to get PDQ into a new building faster.
