Loc Seam

BUILDING END-USE

Baseball Training Facility

This project is a state-of-the-art-facility located in one of the most unique settings you'll ever see. The building consists of 5 different buildings: 1) the lobby is a 41'-4" x 41'-0 1/2 gable symmetrical structure; 2) the merchandise area is a 29'-9" x 41'-0 1/2 lean-to; 3) the workout room is also a lean-to; 4) the training field is 99'-6" x 101'-0 1/2"; and 5) the clerestory is 41'-4" x 101'-0 1/2. A canopy wraps around the entire perimeter of the building. This is a 17,500 square foot climate-controlled training facility containing batting cages and an infield with two levels of viewing areas. This facility can be configured for batting practice and drills, but also can be set up for other sports and events.
