

May 2021

There is an eQuote update scheduled for Monday, May 10, 2021, from approximately 10:00 PM to 11:30 PM Eastern Standard Time. The site will be unavailable during this update.

As you know, pricing can fluctuate. It is extremely important that you understand and communicate the "Order Entry Date" and "Must Ship by Date" with your clients. If a special circumstance presents itself, please contact your District Sales Manager (DSM) or Project Coordinator (PC). Please be sure to update any quote from American Buildings before you close an order where the "Order Entry Date" has expired.

We are continually updating the eQuote site with improvements and enhancements. See some of the recent changes below. For eQuote system requirements, frequently asked questions, or additional resources, please visit the ABC <u>Builder Dashboard</u>.

Technical Support:

- Phone: 877-237-8831
- Email: <u>NBGSoftwareSupport@nucor.com</u>

Pricing Support:

• Contact your **District Sales Manager** and/or Estimating Department.

<u>Training:</u>

 Contact your District Sales Manager to set up a training opportunity for eQuote. Several options are available.

Release Notes:

Updates Effective on May 11, 2021

- Added an additional option to the R-Boost Super Tall clip insulation configuration. An R-Value of R-25 is now available for the bottom layer insulation and is to be used with R-38 for the top layer.
- Performance and stability improvements to several areas of the website.

Updates Effective on April 8, 2021

• Performance and stability improvements to several areas of the website.

Updates Effective on March 18, 2021

- Performance and stability improvements to several areas of the website.
- The FBC High Velocity Hurricane Zone building codes have been renamed from "Miami Dade" to FBC 2017 (HVHZ) and FBC 2020 (HVHZ). These codes are typically required in Miami-Dade and Broward counties in Florida. Be sure to always consult your project EOR for required codes for your project.

Updates Effective on February 9, 2021

• Performance and stability improvements to several areas of the website.
