*June 2022*

eQuote Training Video Series

At American Buildings, we are continuously evolving our web application, eQuote, to help our Builders easily price more projects. In order for our Builders to gain a firm understanding of eQuote and its many options, we've developed a library of training videos that you can watch at your own pace.

Through EagleMAIL, we will highlight certain episodes. If you haven't already, please take a moment to watch the introduction video, which outlines the set-up of this exciting video series:

To access our full library of Virtual eQuote Training, please visit the Builder Dashboard and select **eQuote Resources**.

This month we're highlighting the **Documents** section. This is where you can upload and store important documents with your project for easy access and communication, such as sharing important details with the American Buildings team. Watch this video to familiarize yourself with the Documents section in eQuote.
