## BUILDING END-USE

Beer Brewery & Storage

A beer brewing facility in South Carolina, Brewery 85 is a square, gable symmetrical 100ft x 100ft structure with slate gray wall panels and a 3ft masonry wainscot along the entrance wall. The roof features 16 translucent roof panels to add natural lighting into the building. The front of the building has a roll up overhead door and the building includes a 250 sf boiler lean-to on the right side.
