eQuote Training Video Series

At American Buildings, we are continuously evolving our web application, eQuote, to help our Builders easily price more projects. In order for our Builders to gain a firm understanding of eQuote and its many options, we've developed a library of training videos that you can watch at your own pace.

This month we're highlighting the **Building Manager**. The Building Manager is how you can manage the orientation and attachment of building parts to one another. Watch this video to familiarize yourself with using the Building Manager in eQuote.
