National Accounts Team at Upcoming Tradeshows

The National Accounts program was established to expand the networking capabilities and business opportunities for NBG and our Authorized Builder partners across North America. As corporate influencers, they have strategic relationships with key contacts and access to end customers within many markets. National Accounts Sales Managers can be the go-to building resource for Builders with national companies, assisting with solutions that work for their customer's needs. From helping develop prototype building solutions for Program Accounts, to site and purpose specific building needs of manufacturers and distributors, Nucor's team of experts can help from start to finish. Our National Accounts team works across the entire NBG network, with the capability to handle even the largest projects with predictable pricing, schedules and performance.
