

CUSTOM METAL BUILDING SYSTEMS

# BREWERY & WINERY

## **With over 75 years of experience, American Buildings understands the special needs and requirements of brewery & winery facilities.**

From storage spaces for equipment, structures for personal or business purposes, to cold storage spaces, warehouses, or production buildings for restaurants or tours, we offer a full flexible product line that is custom designed to meet each client's unique needs. With an American metal building, product and equipment are not just stored, they're protected. Our building systems offer the maximum in design flexibility, including clear span frames, high eaves, and expandable endwalls. We can design your structure with future expansion in mind, so as your need for space grows, so can your building.

### **Powerful Relationships. Powerful Results.**

American Buildings is a Nucor Corporation brand, North America's most diversified steel and steel products company. Their integrated infrastructure allows us direct access to an uninterrupted supply of steel. As a result, we have the ability to provide our customers with single source solutions for a wide range of products. Our strength, stability, capacity, resources, and customer-driven focus offer unprecedented value to our customers.

### **Nationwide Authorized Builder Network**

With a coast-to-coast Authorized Builder network, there is likely an experienced American Builder in your local area to partner with on your custom metal building solution, whether you're a private company, corporation, or government or municipality - our more than 900 authorized Builders network can assist with your facility project needs.

### **Innovative, Cutting Edge Technology**

As leaders in innovation, we continuously develop some of the most versatile, energy-efficient, and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their building needs. As a result, we develop new solutions or improve existing ones that provide you with high-performance, competitive products.

### **Superior Product Systems**

American Buildings has raised the metal building industry bar with our high-performance products designed to meet your unique needs. We offer a full range of metal building framing options, industry-proven roof panel systems, attractive wall panels, insulated metal panels, our R-Boost insulation system, energy-saving prismatic skylights, innovative mezzanines, and multiple building accessories.

### **Technical 3D BIM Design Strength**

Each American building system is custom designed from the ground up utilizing Tekla BIM 3D software. You will have a digital prototype that incorporates all aspects of your building from framing to components such as electrical, plumbing and HVAC, which facilitates coordination and cooperation between all principal trade contractors on your project. This allows issues to be addressed early in the process, before your building is manufactured – saving you time and money, and bringing your building to life faster and more efficiently than ever before.

**Metal building construction costs are lower compared to conventional construction.**

The affordability, design flexibility, and energy efficiency of metal building systems make them an appealing solution for brewery & winery facilities.

# BREWERIES
