eQuote Training Video Series

At American Buildings, we are continuously evolving our web application, eQuote, to help our Builders easily price more projects. In order for our Builders to gain a firm understanding of eQuote and its many options, we've developed a library of training videos that you can watch at your own pace.

This month we're highlighting **Calculate Price**. This episode will detail the calculate price function, which runs the building design and assigns the price to the entire project.

If you haven't already, please take a moment to watch the introduction video, which outlines the set-up of this exciting video series:

To access our full library of Virtual eQuote Training, please visit the Builder Dashboard and select **eQuote Resources**.
