Available Metl-Span Wall Panels

- **CF Mesa:** The CF Mesa panel is well suited for exterior and interior walls and ceiling applications. The lightly corrugated profile on both faces creates symmetry while the minor rib provides a flattened appearance.
- **CF Light Mesa:** This shallower version of our Mesa profile is ideal for commercial, institutional, and industrial applications.
- **CF Striated:** The CF Striated panel's exterior face is lightly profiled with narrow longitudinal striations, which create a subtle shadow effect but exhibit a virtually flat appearance from a short distance away.
- **CF Santa Fe:** The CF Santa Fe panel has a flat exterior profile with a heavy, embossed stucco texture that mimics the look of a masonry finish.
- **CF Flute:** The CF Flute panel features a ribbed profile that provides bold vertical reveals complementary to any temperature-controlled building.
- **CF Tuff Wall®:** The CF Tuff Wall is an attractive, stucco-like panel. Its hard aggregated, fiber-reinforced polymer coating offers a durable, impact and abrasion-resistant coating that withstands severe weather conditions.
- **CF Tuff-Cast™:** The CF Tuff-Cast panel mimics the look of finished precast concrete. Its hard aggregated, fiber-reinforced polymer coating offers a durable, impact and abrasion-resistant coating that withstands severe weather conditions.
- **ThermalSafe®:** ThermalSafe is the panel of choice with a fireresistant interlocking side joint, achieving a one-, two- or three- hour fire rating for walls and 1.5 hours for ceilings.

Available Metl-Span Roof Panels

- **CFR-IMP:** The CFR-IMP roof panel provides an unsurpassed weathertight seal and service life. Ideal for commercial, industrial, and institutional markets, the panel can be used on roof slopes as low as ½": 12".

Standard Color Options

The standard IMP colors are now available for our Metl-Span products. There are 12 standard PVDF and six standard SP colors. Tuff Cote® wall panels are available in seven exterior color options for Tuff Wall and Tuff-Cast panels only.

Please see our brochure with color charts [here](#).
