BUILDING END-USE

Equipment Dealership/Service

Florida Coast Equipment expanded its presence to Mims, Florida. This dealership offers a diverse range of Kubota products, including parts, sales, service, and rentals. In addition to a retail store, the facility provides a wide variety of repair and maintenance services with its 9,000 sf service space that features a 5-ton bridge crane.

A 61' x 40' mezzanine is housed in the office area, adding extra square footage for storage without incurring the cost of expanding the ground floor. Parapet walls surround the office. A Kubota orange color was requested for the trim and roof panel, adding dimension to the masonry used on the sales building.
