

Ball State Scheumann Family Indoor Practice Facility

LOCATION

Muncie, IN

SIZE

86,000 sf

WALL SYSTEM

A-Panel

ROOF SYSTEM

Standing Seam 360

BUILDING END-USE

Indoor Practice Facility

Serving as a critical practice space for football, softball, baseball, and soccer during inclement weather, the Scheumann Family Indoor Practice Facility immediately made a large impact on Ball State student-athletes.

Overall, the 86,000 sf facility features a field turf surface measuring 360'x160' and a regulation-sized competition field with a ceiling height of 65'. Retractable netting, batting cages, and storage provide the necessary amenities for teams to conduct training. Through the creative use of metal panel profiles, brick masonry, and translucent glazing, the design matches the surrounding architecture on Ball State's campus.
